INDEX

ABOUSHADID, E. See TURNER and ABOUSHADID, 189.

Action potential in somatic nerve fibers, 43.

—— —— of ventricular muscle, effects of cold and of veratrin on, 165.

Activity, effect of, on irritability of nerve, 656.

Alcohol, ethyl, effect of, on growth of chicks, 450.

ALLEN, E., J. P. PRATT, Q. U. NEWELL and L. J. BLAND. Hormone content of human ovarian tissues, 127.

ALLEN, W. M. Physiology of the corpus luteum:

V. The preparation and some chemical properties of progestin, a hormone of the corpus luteum which produces progestational proliferation, 174.

VI. The production of progestational proliferation of the endometrium of the immature rabbit by progestin (an extract of the corpus luteum) after preliminary treatment with oestrin, 612.

Ammonia, effect of liver removal on formation of, 92.

Anaerobic oxygen debt of frog nerve, 349.

Anemia, experimental, serum iron in, 196.

——, severe, blood regeneration in, 362, 378, 388, 400, 408.

Anhydremia and vitamin B-deficiency,—gastric motility, 83.

Asphyxia, response of spleen volume to, 249.

BARBER, D. See PACK and BARBER, 271.

Basal metabolism and vital capacity of Syrian women, 189.

BEARD, H. H. See POMERENE and BEARD, 282.

BIRCH, C. L. and E. A. BOYDEN. Reaction of gall bladder to stimulation of gastro-intestinal tract. II. Response to faradic excitation of stomach, small intestine and cecum, 301.

——. See BOYDEN and BIRCH, 287.

BLAND, L. J. See ALLEN, PRATT, NEWELL and BLAND, 127.

Blood, effect of rattlesnake venom on, 335.

——, inorganic constituents of, parathormone and, 25.

—— phosphorus after parathyroidectomy, 1.

—— pressure, effect of rattlesnake venom on, 317.

—— ——, effects of vagotomy on, 275.

—— regeneration in severe anemia, 362, 378, 388, 400, 408.

—— volume in normal dogs, 665.

BOLLMAN, J. L. and F. C. MANN. Studies on the physiology of the liver. XVIII. The effect of removal of the liver on the formation of ammonia, 92.

BOOTH, W. See GEMMILL, BOOTH and POCOCK, 253.

BOOTHBY, W. M. See WILHELMJ and BOOTHBY, 568.

BOWIE, M. A. See POWERS, BOWIE and HOWARD, 665.

BOYD, T. E. and R. W. GERARD. The effect of prolonged activity on the irritability of medullated nerve, 656.

BOYDEN, E. A. and C. L. BIRCH. Reaction of gall bladder to stimulation of gastro-intestinal tract. I. Response to substances injected into the duodenum, 287.

——. SEE BIRCH and BOYDEN, 301.

BRIGHT, E. M. See COLWELL and BRIGHT, 543, 555.
BROUGHER, J. C. The effect of desiccated spleen and splenectomy on serum calcium in normal and parathyroidectomized dogs, 648.

CAFFEIN and diuresis in man, 619. Calcium in serum in jaundice, 630.
Carbohydrate metabolism, 543, 555.
Circulation measured with ethyl iodide, 707.
COLWELL, A. R. and E. M. BRIGHT. The use of constant glucose injections for the study of induced variations in carbohydrate metabolism:
III. The fate of the retained sugar under normal conditions and after epinephrin and insulin, 543.
IV. Suppression of glucose combustion by continuous prolonged epinephrin administration, 555.
Contracture, vasodilatation and, 679.
COOK, S. F. and J. M. D. OLMSTED. The effect of asphyxia on the spleen of curarized and uncurarized decapitate cats, 249.
—— and M. I. ROSE. The recovery of the spleen from contraction induced by exercise, 240.
Corpus luteum, 174, 612.
—— —— hormones, follicular and, relation of, to progestational proliferation, 574.
COWGILL, G. R. See ROSE, STUCKY and COWGILL, 83.
Crotalin and histamine, physiologic action of, 705.
CRUICKSHANK, E. W. H. and D. L. SHRIVASTAVA. The action of insulin on the storage and utilization of sugar by the isolated normal and diabetic heart, 144.

DAVIS, L. See POLLOCK and DAVIS, 625.
Decerebration, studies in, 625.
Digestive tract, passage of inert materials through, 466.
Diuresis, caffein and, 619.

ELECTRIC shock, ventricular fibrillation caused by, 223.
ELHARDT, W. E. Effect of ethyl alcohol on the growth of chicks, 450.
ERLANGER, J. and H. S. GASSER. The action potentials in fibers of slow conduction in spinal roots and somatic nerves, 43.
ESAU, J. N. and O. O. STOLAND. Blood phosphorus and serum calcium in normal and parathyroidectomized dogs treated with parathormone, 25.
—— —— ——. Blood phosphorus and serum calcium in parathyroid deficiency, 1.
——. See STOLAND and ESAU, 35.
ESSEX, H. E. and J. MARKOWITZ. The physiological action of rattlesnake venom (crotalin):
I. Effect on blood pressure: symptoms and postmortem observations, 317.
II. The effect of crotalin on surviving organs, 329.
III. The influence of crotalin on blood, in vitro and in vivo, 335.
IV. The effect on lower forms of life, 342.
V. Some experiments on immunity to crotalin, 345.
VI. The effect of crotalin on a visceral organism, 695.
VII. The similarity of crotalin shock and anaphylactic shock, 698.
VIII. A comparison of the physiologic action of crotalin and histamine, 705.
——. See MARKOWITZ and ESSEX, 205.
Ethyl iodide, measurement of circulation by, 707.
Exercise, recovery of spleen volume after, 240.
——, regular moderate, physiological effect of, 253.

FENN, W. O. Frictional and kinetic factors in the work of sprint running, 583.
——. The anaerobic oxygen debt of frog nerve, 349.
Fibrillation, ventricular, caused by electric shock, 223.
——, ——, chemical factors in, 639.

Follicular and corpus luteum hormones, relation of, to progestational proliferation, 574.
FREEMAN, N. E. The rôle of hexose diphosphate in muscle activity, 107.
FUNK, C., B. HARROW and A. LEJWA. The male hormone, 440.

GALL bladder reaction to food, 287, 301.
GASSER, H. S. See ERLANGER and GASSER, 43.
——. See HINSEY and GASSER, 679.
Gastric hunger contractions, phlorhizin and, 690.
—— motility, anhydremia and vitamin B-deficiency, 83.
Gastro-intestinal tract, reaction of gall bladder to stimultion of, 287, 301.
GEMMILL, C., W. BOOTH and B. POCOCK. Muscular training. I. The physiological effect of daily repetition of the same amount of light muscular work, 253.
GERARD, R. W. The response of nerve to oxygen lack, 498.
——. See BOYD and GERARD, 656.
GILSON, A. S., JR. and E. IRVINE-JONES. Effects of cold and of veratrin upon the action potential of ventricular muscle, 165.
—— —— ——. The effect of repetitive stimulation upon the duration of the electrical response of ventricular muscle, 160.
GIRAGOSINTZ, G. and J. M. D. OLMSTED. Possible sources of error in weights of small muscles frozen in liquid air, 414.
Glucose injections in study of carbohydrate metabolism, 543, 555.
GREENE, C. H. See SNELL and GREENE, 630.
Growth of chicks, effect of ethyl alcohol on, 450.

HARROW, B. See FUNK, HARROW and LEJWA, 440.
Heart, isolated, insulin and sugar in, 144.
—— rate, effect of vagotomy on, 275.
Heart rate of dogs breathing normal and oxygen-rich air, 436.
——, revival of, from ventricular fibrillation, 223.
Heat production of smooth muscle, 117.
HENDERSON, Y. and W. MOBITZ. The constant rate of absorption of ethyl iodide vapor and its significance as a basis for measuring the circulation, 707.
Hexose diphosphate, rôle of, in muscle activity, 107.
HINSEY, J. C. and H. S. GASSER. The component of the dorsal root mediating vaso-dilatation and the Sherrington contracture, 679.
HISAW, F. L. and S. L. LEONARD. Relation of the follicular and corpus luteum hormones in the production of progestational proliferation of the rabbit's uterus, 574.
Histamine, crotalin and, physiologic action of, 705.
HOELZEL, F. The rate of passage of inert materials through the digestive tract, 466.
HOOKER, D. R. Chemical factors in ventricular fibrillation, 639.
Hormone content of human ovarian tissues, 127.
——, male, 440.
Hormones, follicular and corpus luteum, relation of, to progestational proliferation, 574.
HOWARD, I. M. See POWERS, BOWIE and HOWARD, 665.
Hunger contractions, gastric, phlorhizin and, 690.
Hyperthyroidism, experimental, glycemic factors in, 672.
——, reflex response in, 457.
Hypothyroidism, reflex response in, 457.

IMMUNITY to rattlesnake venom, 345.
Innervation of smooth muscle, 453.
Insulin and sugar in isolated heart, 144.
——, placental transmission of, 271.
Iodine ingestion and reaction to thyroxin, 568.

Iron, serum, in experimental anemia, 196.
Irradiation, ultraviolet, and magnesium content of rats, 651.
Irvine-Jones, E. See Gilson and Irvine-Jones, 160, 165.

JAUNDICE, calcium in serum in, 630.
Jenkins, T. A. See Steinhaus, Jenkins and Lunn, 436.

KNEE jerk, stature and latent period of, 214.
Kunde, M. M. and M. Neville. Changes in reflex response and electrical excitation of peripheral motor nerves in experimental hypo- and hyperthyroidism, 457.

LAYMAN, J. A. See Reed and Layman, 275.
Lejwa, A. See Funk, Harrow and Lejwa, 440.
Leonard, S. L. See Hisaw and Leonard, 574.
Lie, E. Caffein and diuresis in man, 619.
Lindquist, J. L. See Quigley and Lindquist, 690.
Liver extract, action of, in parathyroid deficiency, 35.
——, physiology of, 92.
—— removal, effect of, on formation of ammonia, 92.
Lundholm, H. See Whitehorn and Lundholm, 214.
Lunn, J. J. See Steinhaus, Jenkins and Lunn, 436.

MAGNESIUM content of irradiated rats, 651.
Mann, F. C. See Bollman and Mann, 92.
Manwell, E. J. See Taylor, Manwell, Robscheit-Robbins and Whipple, 408.
Markowitz, J. and H. E. Essex. Observations on the preparation and activities of a visceral organism, 205.
——. See Essex and Markowitz, 317, 329, 335, 342, 345, 695, 698, 705.
McHargue, J. S. and W. R. Roy. Effect of ultraviolet irradiation on the magnesium content of rats receiving reflected sunlight and a uniform stock ration, 651.
Metabolism, carbohydrate, 543, 555.
—— in experimental hyperthyroidism, 672.
Mobitz, W. See Henderson and Mobitz, 707.
Moorhouse, V. H. K. Observations on the spinal integration of standing, 716.
Muscle activity, rôle of hexose diphosphate in, 107.
——, smooth, heat production of, 117.
——, ——, innervation of, 453.
——, ventricular, effects of cold and of veratrin on action potential of, 165.
——, ——, response of, to repetitive stimuli, 160.
Muscles, frozen, sources of error in weighing, 414.
Muscular training, 253.

NERVE, dorsal root factors in vasodilatation and contracture, 679.
—— fibers, somatic, of slow conduction, 43.
——, frog, anaerobic oxygen debt of, 349.
——, irritability of, effect of activity on, 656.
——, response of, to oxygen lack, 498.
Neville, M. See Kunde and Neville, 457.
Newell, Q. U. See Allen, Pratt, Newell and Bland, 127.
Nutrition of white mouse, 282.

OESTRIN, relation to uterine proliferation, 612.
Olmsted, J. M. D. See Cook and Olmsted, 249.
——. See Giragosintz and Olmsted, 414.
Ovarian tissues, human, hormone content of, 127.
Oxygen debt, anaerobic, of frog nerve, 349.
—— lack, response of nerve to, 498.
—— rich air, effect of, on heart rate of dogs, 436.

PACK, G. T. and D. BARBER. The placental transmission of insulin from fetus to mother, 271.
Parathormone and inorganic constituents of blood, 25.
Parathyroid deficiency, action of liver extract in, 35.
—— tetany, relation of spleen to, 648.
Parathyroidectomy, blood phosphorus and serum calcium after, 1.
Phlorhizin and gastric hunger contractions, 690.
Pitocin, responses of non-gravid uterus to, 430.
Pituitrin, responses of non-gravid uterus to, 430.
Placental transmission of insulin, 271.
POCOCK, B. See GEMMILL, BOOTH and POCOCK, 253.
POLLOCK, L. J. and L. DAVIS. Studies in decerebration. V. The tonic activities of a decerebrate animal exclusive of the neck and labyrinthine reflexes, 625.
POMERENE, E. and H. H. BEARD. Studies in the nutrition of the white mouse. VI. The experimental production of xerophthalmia in mice, 282.
POWERS, J. H., M. A. BOWIE and I. M. HOWARD. Some observations on the blood of normal dogs, with special reference to the total volume, 665.
PRATT, J. P. See ALLEN, PRATT, NEWELL and BLAND, 127.
Progestin, preparation and chemical properties of, 174.
——, relation to uterine proliferation, 612.

QUIGLEY, J. P. and J. L. LINDQUIST. Action of phlorhizin on hunger contractions in the normal or vagotomized dog, 690.

RATTLESNAKE venom, effect of, on lower forms of life, 342.
—— ——, physiology of, 317, 329, 335, 342, 345, 695, 698, 705.
REED, C. I. and J. A. LAYMAN. Effects of bilateral vagotomy on blood pressure and heart rate, 275.
Reflex response in hypo- and hyperthyroidism, 457.
REYNOLDS, S. R. M. Studies on the uterus:
I. A method for recording uterine activity in chronic experiments on unanesthetized animals, 420.
II. Responses of the non-gravid uterus of the unanesthetized rabbit to pituitrin and pitocin, 430.
RIECKER, H. H. and M. E. WINTERS. Serum iron determinations applied to the study of experimental anemia, 196.
ROBSCHEIT-ROBBINS, F. S. and G. H. WHIPPLE. Blood regeneration in severe anemia:
XVII. Influence of manganese, zinc, copper, aluminum, iodine and phosphates, 378.
XIX. Influence of spinach, cabbage, onions and orange juice, 400.
——. See TAYLOR, MANWELL, ROBSCHEIT-ROBBINS and WHIPPLE, 408.
——. See WHIPPLE and ROBSCHEIT-ROBBINS, 362, 388.
ROSE, M. I. See COOK and ROSE, 240.
ROSE, W. B., C. J. STUCKY and G. R. COWGILL, Studies in the physiology of vitamins. XIII. The relation of gastric motility to anhydremia in vitamin B-deficient dogs, 83.
ROY, W. R. See MCHARGUE and ROY, 651.

SCHWARTZ, L. L. See VEACH, SCHWARTZ and WEINSTEIN, 453.
Serum calcium after parathyroidectomy, 1.
—— in jaundice, calcium in, 630.
—— iron in experimental anemia, 196.
Shock, crotalin, similarity of, to anaphylactic shock, 698.
SHPINER, L. B. Increased metabolism only one factor in the production and maintenance of the hyperglycemia and glycosuria in experimental hyperthyroidism, 672.
SHRIVASTAVA, D. L. See CRUICKSHANK and SHRIVASTAVA, 144.

SNELL, A. M. and C. H. GREENE. The calcium in the serum in jaundice, 630.
SNYDER, C. D. On the true anoxidative and oxidative heat production of smooth muscle, 117.
Somatic nerve fibers of slow conduction, 43.
Spinal integration of standing, 716.
Spleen, relation of, to parathyroid tetany, 648.
—— volume, recovery of, after exercise, 240.
—— ——, response of, to asphyxia, 249.
Standing, spinal integration of, 716.
STEINHAUS, A. H., T. A. JENKINS and J. J. LUNN. The heart rate of dogs breathing normal and oxygen-rich air, 436.
STOLAND, O. O. and J. N. ESAU. The influence of liver extract on dogs suffering from parathyroid deficiency, 35.
——. See ESAU and STOLAND, 1, 25.
STUCKY, C. J. See ROSE, STUCKY and COWGILL, 83.
Sugar, insulin and, in isolated heart, 144.

TAYLOR, G. B., E. J. MANWELL, F. S. ROBSCHEIT-ROBBINS and G. H. WHIPPLE. Blood regeneration in severe anemia. XX. Conservation of sheep and goose hemoglobin given intravenously to form dog hemoglobin, 408.
Tetany, parathyroid, relation of spleen to, 648.
Thyroxine, iodine ingestion and reaction to, 568.
Tonic activities of decerebrate animals, 625.
TURNER, E. L. and E. ABOUSHADID. The basal metabolism and vital capacity of Syrian women, 189.

UTERINE activity, method for recording, 420.
Uterus, studies on, 420, 430.

VAGAL gastric effects, relation of, to Wedensky inhibition, 453.
Vagotomy, effect of, on blood pressure and heart rate, 275.
Vasodilatation and contracture, 679.
VEACH, H. O., L. L. SCHWARTZ and M. WEINSTEIN. Studies on the innervation of smooth muscle. V. On the relation of vagal gastric effects to Wedensky inhibition, 453.
Ventricular fibrillation caused by electric shock, 223.
—— ——, chemical factors in, 639.
—— muscle, effects of cold and of veratrin on action potential of, 165.
—— ——, response of, to repetitive stimuli, 160.
Visceral organism, preparation and activities of, 205.
Vital capacity, basal metabolism and, of Syrian women, 189.
Vitamin B-deficiency, gastric motility, anhydremia and, 83.
Vitamins, physiology of, 83.

WEDENSKY inhibition, relation of vagal gastric effects to, 453.
WEINSTEIN, M. See VEACH, SCHWARTZ and WEINSTEIN, 453.
WHIPPLE, G. H. and F. S. ROBSCHEIT-ROBBINS, Blood regeneration in severe anemia:
XVI. Optimum iron therapy and salt effect, 362.
XVIII. Influence of liver, blood sausage, veal, eggs, chicken and gelatin, 388.
——. See ROBSCHEIT-ROBBINS and WHIPPLE, 378, 400.
——. See TAYLOR, MANWELL, ROBSCHEIT-ROBBINS and WHIPPLE, 408.
WHITEHORN, J. C. and H. LUNDHOLM. The relation betwen stature and the latent period of the knee jerk, 214.
WIGGERS, C. J. Studies of ventricular fibrillation caused by electric shock.
I. The revival of the heart from ventricular fibrillation by successive use

of potassium and calcium salts, 223.

WILHELMJ, C. M. and W. M. BOOTHBY. The effect of the daily administration of iodine on the calorigenic action of single intravenous injections of thyroxine, 568.

WINTERS, M. E. See RIECKER and WINTERS, 196.

Work of sprinting, kinetic and frictional factors in, 583.

XEROPHTHALMIA in mice, experimental production of, 282.

THE AMERICAN JOURNAL OF PHYSIOLOGY

VOLUME XCII

BALTIMORE, MD.
1930

Med. lib.
Waller

CONTENTS

No. 1. February, 1930

Blood Phosphorus and Serum Calcium in Parathyroid Deficiency. *J. Nick Esau and O. O. Stoland*..... 1
Blood Phosphorus and Serum Calcium in Normal and Parathyroidectomized Dogs Treated with Parathormone. *J. Nick Esau and O. O. Stoland.* 25
The Influence of Liver Extract on Dogs Suffering from Parathyroid Deficiency. *O. O. Stoland and J. N. Esau*..... 35
The Action Potential in Fibers of Slow Conduction in Spinal Roots and Somatic Nerves. *Joseph Erlanger and H. S. Gasser*..... 43
Studies in the Physiology of Vitamins. XIII. The Relation of Gastric Motility to Anhydremia in Vitamin B-Deficient Dogs. *William B. Rose, Charles J. Stucky and George R. Cowgill*..... 83
Studies on the Physiology of the Liver. XVIII. The Effect of Removal of the Liver on the Formation of Ammonia. *Jesse L. Bollman and Frank C. Mann*..... 92
The Rôle of Hexose Diphosphate in Muscle Activity. *Norman E. Freeman.* 107
On the True Anoxidative and Oxidative Heat Production of Smooth Muscle. *C. D. Snyder*..... 117
Hormone Content of Human Ovarian Tissues. *Edgar Allen, J. P. Pratt, Q. U. Newell and L. J. Bland*..... 127
The Action of Insulin on the Storage and Utilization of Sugar by the Isolated Normal and Diabetic Heart. *E. W. H. Cruickshank and D. L. Shrivastava*..... 144
The Effect of Repetitive Stimulation upon the Duration of the Electrical Response of Ventricular Muscle. *A. S. Gilson, Jr. and E. Irvine-Jones*..... 160
Effects of Cold and of Veratrin upon the Action Potential of Ventricular Muscle. *A. S. Gilson, Jr. and E. Irvine-Jones*..... 165
Physiology of the Corpus Luteum. V. The Preparation and Some Chemical Properties of Progestin, a Hormone of the Corpus Luteum Which Produces Progestational Proliferation. *Willard M. Allen*..... 174
The Basal Metabolism and Vital Capacity of Syrian Women. *Edward L. Turner and Edma Aboushadid*..... 189
Serum Iron Determinations Applied to the Study of Experimental Anemia. *Herman H. Riecker and Mary E. Winters*..... 196
Observations on the Preparation and Activities of a Visceral Organism. *J. Markowitz and Hiram E. Essex*..... 205
The Relation Between Stature and the Latent Period of the Knee Jerk. *John C. Whitehorn and Helge Lundholm*..... 214
Studies of Ventricular Fibrillation Caused by Electric Shock. I. The Revival of the Heart from Ventricular Fibrillation by Successive Use of Potassium and Calcium Salts. *Carl J. Wiggers. In collaboration with J. R. Bell, Margaret Paine, H. D. B. Shaw, H. Theisen and Alice Maltby.* 223

The Recovery of the Spleen from Contraction Induced by Exercise. *S. F. Cook and M. I. Rose*..... 240
The Effect of Asphyxia on the Spleen of Curarized and Uncurarized Decaptitate Cats. *S. F. Cook and J. M. D. Olmsted*..... 249
Muscular Training. I. The Physiological Effect of Daily Repetition of the Same Amount of Light Muscular Work. *C. Gemmill, W. Booth and B. Pocock*..... 253
The Placental Transmission of Insulin from Fetus to Mother. *George T. Pack and Donn Barber*..... 271
Effects of Bilateral Vagotomy on Blood Pressure and Heart Rate. *C. I. Reed and J. A. Layman*..... 275
Studies in the Nutrition of the White Mouse. VI. The Experimental Production of Xerophthalmia in Mice. *Elizabeth Pomerene and Howard H. Beard*..... 282

No. 2. March, 1930

Reaction of Gall Bladder to Stimulation of Gastro-Intestinal Tract. I. Response to Substances Injected into the Duodenum. *Edward A. Boyden and Carroll L. Birch*..... 287
Reaction of Gall Bladder to Stimulation of Gastro-Intestinal Tract. II. Response to Faradic Excitation of Stomach, Small Intestine and Cecum. *Carroll L. Birch and Edward A. Boyden*..... 301
The Physiologic Action of Rattlesnake Venom (Crotalin). I. Effect on Blood Pressure: Symptoms and Post-Mortem Observations. *Hiram E. Essex and J. Markowitz*..... 317
The Physiologic Action of Rattlesnake Venom (Crotalin). II. The Effect of Crotalin on Surviving Organs. *Hiram E. Essex and J. Markowitz*..... 329
The Physiologic Action of Rattlesnake Venom (Crotalin). III. The Influence of Crotalin on Blood, in Vitro and in Vivo. *Hiram E. Essex and J. Markowitz*..... 335
The Physiologic Action of Rattlesnake Venom (Crotalin). IV. The Effect on Lower Forms of Life. *Hiram E. Essex and J. Markowitz*..... 342
The Physiologic Action of Rattlesnake Venom (Crotalin). V. Some Experiments on Immunity to Crotalin. *Hiram E. Essex and J. Markowitz*. 345
The Anaerobic Oxygen Debt of Frog Nerve. *Wallace O. Fenn*..... 349
Blood Regeneration in Severe Anemia. XVI. Optimum Iron Therapy and Salt Effect. *G. H. Whipple and F. S. Robscheit-Robbins*..... 362
Blood Regeneration in Severe Anemia. XVII. Influence of Manganese, Zinc, Copper, Aluminum, Iodine and Phosphates. *F. S. Robscheit-Robbins and G. H. Whipple*..... 378
Blood Regeneration in Severe Anemia. XVIII. Influence of Liver and Blood Sausage, Veal, Eggs, Chicken and Gelatin. *G. H. Whipple and F. S. Robscheit-Robbins*..... 388
Blood Regeneration in Severe Anemia. XIX. Influence of Spinach, Cabbage, Onions and Orange Juice. *F. S. Robscheit-Robbins and G. H. Whipple*..... 400
Blood Regeneration in Severe Anemia. XX. Conservation of Sheep and Goose Hemoglobin Given Intravenously to Form Dog Hemoglobin. *G. B. Taylor, E. J. Manwell, F. S. Robscheit-Robbins and G. H. Whipple*..... 408

Possible Sources of Error in Weights of Small Muscles Frozen in Liquid Air. *George Giragosintz and J. M. D. Olmsted*..... 414
Studies on the Uterus. I. A Method for Recording Uterine Activity in Chronic Experiments on Unanesthetized Animals. *Samuel R. M. Reynolds*..... 420
Studies on the Uterus. II. Responses of the Non-Gravid Uterus of the Unanesthetized Rabbit to Pituitrin and Pitocin. *Samuel R. M. Reynolds*..... 430
The Heart Rate of Dogs Breathing Normal and Oxygen-rich Air. *Arthur H. Steinhaus, Thomas A. Jenkins and John J. Lunn*..... 436
The Male Hormone. *Casimir Funk, Benjamin Harrow and A. Lejwa*..... 440
Effect of Ethyl Alcohol on the Growth of Chicks. *Walter E. Elhardt*... 450
Studies on the Innervation of Smooth Muscle. V. On the Relation of Vagal Gastric Effects to Wedensky Inhibition. *H. O. Veach, L. L. Schwartz and M. Weinstein*..... 453
Changes in Reflex Response, and Electrical Excitation of Peripheral Motor Nerves in Experimental Hypo- and Hyperthyroidism. *M. M. Kunde and Mary Neville*..... 457
The Rate of Passage of Inert Materials Through the Digestive Tract. *Frederick Hoelzel*..... 466
The Response of Nerve to Oxygen Lack. *R. W. Gerard*..... 498

No. 3. April, 1930

The Use of Constant Glucose Injections for the Study of Induced Variations in Carbohydrate Metabolism. III. The Fate of the Retained Sugar under Normal Conditions and after Epinephrin and Insulin. *A. R. Colwell and E. M. Bright*..... 543
The Use of Constant Glucose Injections for the Study of Induced Variations in Carbohydrate Metabolism. IV. Suppression of Glucose Combustion by Continuous Prolonged Epinephrin Administration. *A. R. Colwell and E. M. Bright*..... 555
The Effect of the Daily Administration of Iodine on the Calorigenic Action of Single Intravenous Injections of Thyroxine. *Charles M. Wilhelmj and Walter M. Boothby*..... 568
Relation of the Follicular and Corpus Luteum Hormones in the Production of Progestational Proliferation of the Rabbit's Uterus. *Frederick L. Hisaw and Samuel L. Leonard*..... 574
Frictional and Kinetic Factors in the Work of Sprint Running. *Wallace O. Fenn with the assistance of C. A. Morrison*..... 583
Physiology of the Corpus Luteum. VI. The Production of Progestational Proliferation of the Endometrium of the Immature Rabbit by Progestin (an Extract of the Corpus Luteum) after Preliminary Treatment with Oestrin. *Willard M. Allen*..... 612
Caffein and Diuresis in Man. *Einar Lie*..... 619
Studies in Decerebration. V. The Tonic Activities of a Decerebrate Animal Exclusive of the Neck and Labyrinthine Reflexes. *Lewis J. Pollock and Loyal Davis*..... 625
The Calcium in the Serum in Jaundice *Albert M. Snell and Carl H. Greene, with the technical assistance of Florence Wales*..... 630
Chemical Factors in Ventricular Fibrillation. *D. R. Hooker*..... 639
The Effect of Desiccated Spleen and Splenectomy on Serum Calcium in Normal and Parathyroidectomized Dogs. *John C. Brougher*..... 648

Effect of Ultraviolet Irradiation on the Magnesium Content of Rats Receiving Reflected Sunlight and a Uniform Stock Ration. *J. S. McHargue and W. R. Roy* 651
The Effect of Prolonged Activity on the Irritability of Medulated Nerve. *T. E. Boyd and R. W. Gerard* 656
Some Observations on the Blood of Normal Dogs, with Special Reference to the Total Volume. *J. H. Powers, M. A. Bowie and I. M. Howard* 665
Increased Metabolism only one Factor in the Production and Maintenance of the Hyperglycemia and Glycosuria in Experimental Hyperthyroidism. *Leonard Benjamin Shpiner* 672
The Component of the Dorsal Root Mediating Vaso-dilatation and the Sherrington Contracture. *Joseph C. Hinsey and Herbert S. Gasser* 679
Action of Phlorhizin on Hunger Contractions in the Normal or Vagotomized Dog. *J. P. Quigley and J. L. Lindquist* 690
The Physiologiç Action of Rattlesnake Venom (Crotalin). VI. The Effect of Crotalin on a Visceral Organism. *Hiram E. Essex and J. Markowitz* 695
The Physiologic Action of Rattlesnake Venom (Crotalin). VII. The Similarity of Crotalin Shock and Anaphylactic Shock. *Hiram E. Essex and J. Markowitz* 698
The Physiologic Action of Rattlesnake Venom (Crotalin). VIII. A Comparison of the Physiologic Action of Crotalin and Histamine. *Hiram E. Essex and J. Markowitz* 705
The Constant Rate of Absorption of Ethyl Iodide Vapor and Its Significance as a Basis for Measuring the Circulation. *Yandell Henderson and Woldemar Mobitz* 707
Observations on the Spinal Integration of Standing. *V. H. K. Moorhouse* .. 716
